The Aeronautical Journal of the Royal Aeronautical Society

INCORPORATING THE INSTITUTION OF AERONAUTICAL ENGINEERS AND THE HELICOPTER ASSOCIATION OF GREAT BRITAIN

VOLUME LXXXV

JANUARY—DECEMBER 1981

The following is based on the indexing of the RAeS Publications Index 1897-1977, published by the Society.

ACORN, A. G.
Alternative learning curves for cost estimating, pp 194-205 (May).

AIRCRAFT DESIGN
A large executive jet design project, Dr. J. P. Fielding, pp 215-219 (June).
Civil aircraft design for fuel reduction, Dr. Walter Tye, pp 134-142 (April).
Design evolution of the Boeing 757, P. M. Condit, pp 451-458 (Dec.).

AIRLINES
The economics of Shuttle, Captain R. A. Twomey, pp 1-6 (Jan.).

AIRSHIPS AND BALLOONS
Design aspects of non rigid airship envelopes, J. A. I. Reid, pp 327-328 (Sept.).
Helium and its relevance to the airship industry, C. R. Lloyd, pp 91-93 (March).
Instruments for airships, R. A. Chorley, pp 95-97 (March).
Lighter-than-air developments in Great Britain, A. W. L. Nayler, pp 368-378 (Oct.).
Materials for airship construction, K. G. Payne, pp 85-87 (March).
Propulsion of airships, J. D. Kemp, pp 88-90 (March).
The airship in the modern air traffic control environment, G. G. Gill, pp 93-95 (March).

AIR TRANSPORT
The economics of Shuttle, Captain R. A. Twomey, pp 1-6 (Jan.).

ARMAMENT
Air armaments — are we on target? Dr. R. G. Fenby, pp 48-56 (Feb.).

AWBI, H. B.
An assessment of the universal Strouhal number concepts for two-dimensional bluff bodies, pp 467-469 (Dec.).

BALTHAZOR, L. R. and FARRAR, D. J.
Analysis of high technology collaboration, pp 277-285 (July/Aug.).

BANDYOPADHYAY, B. and KARMAKAR, R.
Stress concentration in rectangular cut-outs under pure shear, pp 111-112 (March).

BARRETT, R. V. and SHANKS, D. H.
Performance of aircraft pneumatic tyres in soft soil, pp 20-28 (Jan.).

BENDIXEN, G. E., O'CONNELL, R. F. and SIEGERT, C. D.
Digital active control system for load alleviation for the Lockheed L-1011, pp 430-436 (Nov.).

BEN-DOR, G., RAKIV, Z., IGRA, O. and YAKHOT, A.
A new approach to the solution of the boundary layer equations of an ideal compressible flow over a flat plate, pp 34-35 (Jan.).

BOOK REVIEWS — AUTHORS
Allen, Sir Peter and Robson, Graham, Transport Pioneers of the Twentieth Century, p 437 (Nov.).
Babister, A. W., Aircraft Dynamic Stability and Response, p 36 (Jan.).
Bajpai, A. C., Mustoe, L. R. and Walker, D., Specialist Techniques in Engineering Mathematics, p 256 (June).
Böckstiegel, Karl-Heinz (Editor), Settlement of Space Law Disputes, p 80 (Feb.).
Constant, E. W., The Origins of the Turbojet Revolution, p 123 (March).
Dhenin, Air Marshal Sir Geoffrey (Editor-in-Chief), Aviation Medicine. Volume 1: Physiology and Human Factors. Volume 2: Health and Clinical Aspects, p 36 (Jan.).
Field, Arnold, The Control of Air Traffic, p 167 (April).
Harman, Richard T. C., Gas Turbine Engineering, p 167 (April).
Hunt, B. (Editor), Numerical Methods in Applied Fluid Dynamics, p 437 (Nov.).
Johnson, W., Helicopter Theory, p 123 (March).
Lewis, R. W., *et al* (Edited by), Numerical Methods in Heat Transfer, p 256 (June).
Lowe, H. C., Fluid Mechanics — 2nd Edition, p 470 (Dec.).
Meetham, G. W. (Editor), The Development of Gas Turbine Materials, p 470 (Dec.).
Monzingo, R. A. and Miller, T. W., Introduction to Adaptive Arrays, p 349 (Sept.).
O'Connor, Patrick D. T., Practical Reliability Engineering, p 349 (Sept.).
Waterhouse, R. B. (Editor), Fretting Fatigue, p 437 (Nov.).
Whittle, Sir Frank, Gas Turbine Aero-Thermodynamics, with special reference to Aircraft Propulsion, p 301 (July/Aug.).

BOOK REVIEWS — TITLES
Aircraft Dynamic Stability and Response, A. W. Babister, p 36 (Jan.).
Aviation Medicine. Volume 1: Physiology and Human Factors. Volume 2: Health and Clinical Aspects, Air Marshal Sir Geoffrey Dhenin (Editor-in-Chief), p 36 (Jan.).
The Control of Air Traffic, Arnold Field, p 167 (April).
The Development of Gas Turbine Materials, G. W. Meetham (Editor), p 470 (Dec.).
Fluid Mechanics — 2nd Edition, H. C. Lowe, p 470 (Dec.).
Fretting Fatigue, R. B. Waterhouse (Editor), p 437 (Nov.).
Gas Turbine Aero-Thermodynamics, with special reference to Aircraft Propulsion, Sir Frank Whittle, p 301 (July/Aug.).
Gas Turbine Engineering, Richard T. C. Harman, p 167 (April).
Helicopter Theory, W. Johnson, p 123 (March).
Introduction to Adaptive Arrays, R. A. Monzingo and T. W. Miller, p 349 (Sept.).
Numerical Methods in Applied Fluid Dynamics, B. Hunt (Editor), p 437 (Nov.).
Numerical Methods in Heat Transfer, Edited by R. W. Lewis, *et al*, p 256 (June).
The Origins of the Turbojet Revolution, E. W. Constant, p 123 (March).
Practical Reliability Engineering, Patrick D. T. O'Connor, p 349 (Sept.).
Settlement of Space Law Disputes, Karl-Heinz Böckstiegel (Editor), p 80 (Feb.).
Specialist Techniques in Engineering Mathematics, A. C. Bajpai, L. R. Mustoe and D. Walker, p 256 (June).
Transport Pioneers of the Twentieth Century, Sir Peter Allen and Graham Robson, p 437 (Nov.).

BOORER, N. W.
Barnes Wallis — Designer (1887-1979), pp 414-429 (Nov.).

BORGER, JOHN G.
The well tempered transport aircraft engine, pp 395-413 (Nov.).

BOTTOMS, H. S.
High pressure fuel pumps — their design and evolution, pp 220-233 (June).

BOUNDARY LAYERS
A new approach to the solution of the boundary layer equations of an ideal compressible flow over a flat plate, A. Yakhot, G. Ben-Dor, Z. Rakib and O. Igra, pp 34-35 (Jan.).

BOYD, CAROLINE and WINTER, K. G.
A speculation on the influence of compressibility on the performance of a wind-tunnel contraction cone, pp 387-389 (Oct.).

BUCKLING AND INSTABILITY OF STRUCTURES
An experimental investigation of the post-buckled efficiency of Z-section stringer-skin panels, A. Rothwell, pp 29-33 (Jan.).

CALDECOTE, Lord
Co-operation in engineering between universities and industry, pp 353-358 (Oct.).

CALDWELL, J. B.
Fluid and air-borne structures: some comparisons and contrasts, pp 359-367 (Oct.).

CHORLEY, R. A.
Instruments for airships, pp 95-97 (March).

COLEGATE, R.
The evolution of British civil aviation since Edwards, pp 143-149 (April).

COLEMAN, R., ROBINS, A. J., FRARY, D. J. and STEPHENSON, R.
Mini-RPV research, pp 39-47 (Feb.).

CONDIT, P. M.
Design evolution of the Boeing 757, pp 451-458 (Dec.).

DIFFUSERS
The effect of superimposed Rankine and forced vortices on conical diffuser performance, R. S. Neve and A. Thakker, pp 234-239 (June).

DONALD, E. P.
Pretension diagrams for bolted joints, pp 71-79 (Feb.).

DUNSMORE, M. R. B. and GIBBS, S. E.
Communications to RPVs, pp 98-102 (March).

DYNAMICS
On the choice of axes systems for aircraft dynamic calculations, H. Hitch, pp 190-193 (May).
Spin: angles and inertial moments, Patroclos J. Yangos and John P. Yangos, pp 270-276 (July/Aug.).

ECONOMICS
Alternative learning curves for cost estimating, A. G. Acorn, pp 194-205 (May).
Cost control requirements: estimating impact, G. P. Jacobs, pp 173-178 (May).

Special topics in optical propagation. Edited P. Halley. AGARD-CP-300. July 1981.

Papers deal with propagation in the atmosphere at low and high altitudes and in sea water, novel communication techniques, and non-linear and adaptive optics.

SAFETY

Information transfer problems in the aviation system. Edited C. E. Billings and E. S. Cheaney. NASA TP-1875. September 1981.

Deals with communication problems in the cockpit and in the air traffic control system both between controllers and between the controller and crew.

NASA aviation safety reporting system: quarterly report no 12. NASA TM-81252. December 1980.

A flight investigation of simulated data-link communications during single-pilot IFR flight. Vol I — experimental design and initial tests. J. F. Parker *et al.* NASA CR-3461. August 1981.

Guidelines for line-oriented flight training. Volume I. Proceedings of a NASA Industry workshop held at NASA Ames Research Center, Moffett Field, California, 13th-15th January 1981. J. K. Lauber and H. C. Foushee. NASA CP-2184. 1981.

Analyse von zwei Verkehrsabläufen im Anflugbereich Frankfurt/Main vom 3. August 1979. M. Schubert and U. Völckers. DFVLR-Mitt 81-17. August 1981.

Rotorcraft icing-status and prospects. AGARD-AR-166. August 1981.

STRENGTH ANALYSIS

Mathematical modeling of damage in unidirectional composites. J. G. Goree *et al.* NASA CR-3453. August 1981.

TESTING FACILITIES AND TECHNIQUES

Performance tests of a gas blending system based on mass-flow controllers. A. Evans. NASA TP-1896. August 1981.

In situ sensors for measurements in the global troposphere. M. L. Saeger *et al.* NASA CR-3465. September 1981.

Air-breathing engine test facilities register. Compiled J. H. Krengel. AGARD-AG-269. July 1981.

Range instrumentation. The White Sands missile range data systems manual. L. R. Sugerman: AGARD-AR-168. August 1981.

Density measurements in gas-particle flows. L. Lourenco and M. L. Riethmuller. VKI TM 32. May 1981.

Long range laser anemometry with particular reference to wind power development. L. Danielsson and E. R. Pike. FFA TN HU-2262 Part 3. September 1981.

The economics of Shuttle, Captain R. A. Twomey, pp 1-6 (Jan.).
Learning to improve productivity and cut costs, R. A. Harvey, pp 169-173 (May).

EDUCATION AND TRAINING
Co-operation in engineering between universities and industry, Lord Caldecote, pp 353-358 (Oct.).

ELECTRICAL AND ELECTRICAL SYSTEMS
Advanced generating system equipment for aircraft, R. J. Kennett, pp 127-133 (April).

ENGINES
Helicopter engine technology — with particular reference to the Rolls-Royce Gem engine, Dennis Lewis, pp 313-319 (Sept.).
High pressure fuel pumps — their design and evolution, H. S. Bottoms, pp 220-233 (June).
Requirements and possibilities — rotorcraft powerplants, Robert R. Lynn, pp 7-16 (Jan.).
The well tempered transport aircraft engine, John G. Borger, pp 395-413 (Nov.).

FARRAR, D. J. and BALTHAZOR, L. R.
Analysis of high technology collaboration, pp 277-285 (July/Aug.).

FENBY, Dr. R. G.
Air armaments — are we on target? pp 48-56 (Feb.).

FENTON, J. and GILL, K. F.
Flexible spacecraft attitude control using a simple *P+D* algorithm, pp 185-189 (May).

FENTON, J., GILL, K. F. and HORTON, D.
Attitude estimation and control of a flexible spacecraft using inertial and optical measurements, pp 240-243 (June).

FIELDING, Dr. J. P.
A large executive jet design project, pp 215-219 (June).

FLIGHT CONTROL SYSTEMS
Digital active control system for load alleviation for the Lockheed L-1011, G. E. Bendixen, R. F. O'Connell and C. D. Siegert, pp 430-436 (Nov.).

FLUID MECHANICS
An assessment of the universal Strouhal number concepts for two-dimensional bluff bodies, H. B. Awbi, pp 467-469 (Dec.).
Application of vortex lattice methods to calculate L_v (rolling moment due to sideslip), M. A. Javed and G. J. Hancock, pp 113-117 (March).
Experimental investigations of the base pressures found on a bluff body in ground effect, R. L. L. Frost, pp 63-70 (Feb.).
Experiments on the reduction of base drag of a blunt trailing edge aerofoil in subsonic flow, S. L. Gai and S. D. Sharma, pp 206-210 (May).

FRARY, D. J., STEPHENSON, R., COLEMAN, R. and ROBINS, A. J.
Mini-RPV research, pp 39-47 (Feb.).

FROST, R. L. L.
Experimental investigations of the base pressures found on a bluff body in ground effect, pp 63-70 (Feb.).

FUELS AND COMBUSTION
A short history of aviation gasoline development, 1903-1980, Alexander R. Ogston, pp 441-450 (Dec.).

GAI, S. L. and SHARMA, S. D.
Experiments on the reduction of base drag of a blunt trailing edge aerofoil in subsonic flow, pp 206-210 (May).

GIBBINGS, J. C.
Achievement of aerial flight: an engineering assessment, pp 257-265 (July/Aug.).

GIBBS, S. E. and DUNSMORE, M. R. B.
Communications to RPVs, pp 98-102 (March).

GILL, G. G.
The airship in the modern air traffic control environment, pp 93-95 (March).

GILL, K. F. and FENTON, J.
Flexible spacecraft attitude control using a simple *P+D* algorithm, pp 185-189 (May).

GILL, K. F., HORTON, D. and FENTON, J.
Attitude estimation and control of a flexible spacecraft using inertial and optical measurements, pp 240-243 (June).

HALFORD MEMORIAL LECTURE (15th)
Requirements and possibilities — rotorcraft powerplants, Robert R. Lynn, pp 7-16 (Jan.).

HANCOCK, G. J. and JAVED, M. A.
Application of vortex lattice methods to calculate L_v (rolling moment due to sideslip), pp 113-117 (March).

HANDLEY PAGE MEMORIAL LECTURE
Co-operation in engineering between universities and industry, Lord Caldecote, pp 353-358 (Oct.).

HART, Professor CLIVE
The ornithopters of Grimaldi, Morris and Desforges, pp 307-312 (Sept.).

HARVEY, R. A.
Learning to improve productivity and cut costs, pp 169-173 (May).

HISTORY
Achievement of aerial flight: an engineering assessment, J. C. Gibbings, pp 257-265 (July/Aug.).
Barnes Wallis — Designer (1887-1979), N. W. Boorer, pp 414-429 (Nov.).
The evolution of British civil aviation since Edwards, R. Colegate, pp 143-149 (April).
Investment for the future, I. R. Yates, pp 286-300 (July/Aug.).
The ornithopters of Grimaldi, Morris and Desforges, Professor Clive Hart, pp 307-312 (Sept.).
A short history of aviation gasoline development, 1903-1980, Alexander R. Ogston, pp 441-450 (Dec.).

HITCH, H.
On the choice of axes systems for aircraft dynamic calculations, pp 190-193 (May).

HORTON, D., FENTON, J. and GILL, K. F.
Attitude estimation and control of a flexible spacecraft using inertial and optical measurements, pp 240-243 (June).

IGRA, O., YAKHOT, A., BEN-DOR, G. and RAKIV, Z.
A new approach to the solution of the boundary layer equations of an ideal compressible flow over a flat plate, pp 34-35 (Jan.).

INDUSTRY
Investment for the future, I. R. Yates, pp 286-300 (July/Aug.).

INTERNATIONAL, INCLUDING INTERNATIONAL COLLABORATION
Analysis of high technology collaboration, D. J. Farrar and L. R. Balthazor, pp 277-285 (July/Aug.).

JACOBS, G. P.
Cost control requirements: estimating impact, pp 173-178 (May).

JAVED, M. A. and HANCOCK, G. J.
Application of vortex lattice methods to calculate L_v (rolling moment due to sideslip), pp 113-117 (March).

JEFFERSON, P.
Productivity comparisons with the USA — where do we differ?, pp 179-184 (May).

JONES, R. E.
Airline flight departure procedures — choosing between noise abatement, minimum fuel consumption and minimum cost, pp 154-166 (April).

KARMAKAR, R. and BANDYOPADHYAY, B.
Stress concentration in rectangular cut-outs under pure shear, pp 111-112 (March).

KEMP, J. D.
Propulsion of airships, pp 88-90 (March).

KENNETT, R. J.
Advanced generating system equipment for aircraft, pp 127-133 (April).

LARGE, E.
Optimal flight paths for winged, supersonic flight vehicles — extension to the case where thrust can be vectored, pp 343-348 (Sept.).
Optimal low-level pursuit and evasion, pp 266-269 (July/Aug.).
The optimal planform, size and mass of a wing, pp 103-110 (March).

LEWIS, DENNIS
Helicopter engine technology — with particular reference to the Rolls-Royce Gem engine, pp 313-319 (Sept.).

LLOYD, C. R.
Helium and its relevance to the airship industry, pp 91-93 (March).

LYNN, ROBERT R.
Requirements and possibilities — rotorcraft powerplants, pp 7-16 (Jan.).

MANAGEMENT
Productivity comparisons with the USA — where do we differ? P. Jefferson, pp 179-184 (May).

MAN-POWERED AIRCRAFT
The application of dynamic soaring to man powered flight, Keith Sherwin, pp 150-153 (April).
The ornithopters of Grimaldi, Morris and Desforges, Professor Clive Hart, pp 307-312 (Sept.).

MATERIALS
The application of improved aluminium alloys and steels in aircraft structures, C. J. Peel and D. S. McDarmaid, pp 320-326 (Sept.).
Fatigue behaviour under out-of-phase bending and torsion, D. L. McDiarmid, pp 118-122 (March).
Light aircraft structural design in non-metallics — use of composite honeycomb for light aircraft, G. E. Woodley, pp 332-333 (Sept.).
Some possibilities for composite light aircraft construction, J. H. Webb, pp 328-331 (Sept.).

MATTICK, A. A. and STOLLERY, J. L.
Increasing the lift:drag ratio of a flat delta wing, pp 379-386 (Oct.).

McDARMAID, D. S. and PEEL, C. J.
The application of improved aluminium alloys and steels in aircraft structures, pp 320-326 (Sept.).

McDIARMID, D. L.
Fatigue behaviour under out-of-phase bending and torsion, pp 118-122 (March).

MILITARY AVIATION
Investment for the future, I. R. Yates, pp 286-300 (July/Aug.).

MISSILES
Optimal low level pursuit and evasion, E. Large, pp 266-269 (July/Aug.).

MOSS, G. M.
Shock wave reflection from supersonic sea-skimming — a first look, pp 459-466 (Dec.).

NAYLER, A. W. L.
Lighter-than-air developments in Great Britain, pp 368-378 (Oct.).

NEVE, R. S. and THAKKER, A.
The effect of superimposed Rankine and forced vortices on conical diffuser performance, pp 234-239 (June).

NORRIS, MARK
The use of bonded crack-stoppers in pressure cabins, pp 57-62 (Feb.).

NORTH, J. D., MEMORIAL LECTURE (13th)
High pressure fuel pumps — their design and evolution, H. S. Bottoms, pp 220-233 (June).

O'CONNELL, R. F., SIEGERT, C. D. and BENDIXEN, G. E.
Digital active control system for load alleviation for the Lockheed L-1011, pp 430-436 (Nov.).

OGSTON, ALEXANDER R.
A short history of aviation gasoline development, 1903-1980, pp 441-450 (Dec.).

ORNITHOPTERS
The ornithopters of Grimaldi, Morris and Desforges, Professor Clive Hart, pp 307-312 (Sept.).

PAGE, Sir FREDERICK W., MEMORIAL LECTURE (1st)
Investment for the future, I. R. Yates, pp 286-300 (July/Aug.).

PAYNE, K. G.
Materials for airship construction, pp 85-87 (March).

PEEL, C. J. and McDARMAID, D. S.
The application of improved aluminium alloys and steels in aircraft structures, pp 320-326 (Sept.).

PERFORMANCE
Airline flight departure procedures — choosing between noise abatement, minimum fuel consumption and minimum cost, R. E. Jones, pp 154-166 (April).

PHOTOGRAPHS
Aircraft
AEW Nimrod Mk 3, Cover (April).
Avro biplane, p 262 (July/Aug.).
B3/42 Windsor, p 420 (Nov.).
BAe 146, Cover (Feb.).
Bell XV-15, Cover (June).
Boeing B247, p 396 (Nov.).
Boeing B-307, p 399 (Nov.).
Boeing B-314, p 398 (Nov.).
Boeing 314, p 447 (Dec.).
Boeing B-377, p 401 (Nov.).
Boeing B707-121, p 404 (Nov.).
Boeing B707-321, p 405 (Nov.).
Boeing B707-321B, p 406 (Nov.).
Boeing B707-321C, p 407 (Nov.).

Wright Flyer, p 442 (Dec.).

Airships
AD500, Cover (March).
Airship Industries Skyship 500, p 368 (Oct.).
Vickers Mayfly, p 415 (Nov.).

Engines
Gnome 100 hp rotary engine, p 443 (Dec.).
P&W R-1690E, p 397 (Nov.).
P&W R2000-13, p 399 (Nov.).
P&W R2800CB-17, p 400 (Nov.).
P&W R-4360 Wasp Major, p 401 (Nov.).
Pratt & Whitney R-1830, p 396 (Nov.).
Rolls-Royce Gem, Cover (Sept.).
Rolls-Royce Merlin, p 448 (Dec.).
Rolls-Royce RB 211-535, Cover (Dec.).
Wright brothers 1903 12 hp engine, p 441 (Dec.).
Wright Turbo-Cyclone 18 Compound engine, p 402 (Nov.).

Helicopters
Bell's family of rotorcraft, pp 8-9 (Jan.).

RPVs
CIT Machan, pp 330-331 (Sept.).
Stabileye Mk. 1, p 39 (Feb.).
Stabileye Mk. 2, p 40 (Feb.).
Stabileye prototype, p 39 (Feb.).

RAKIV, Z., IGRA, O., YAKHOT, A. and BEN-DOR, G.
A new approach to the solution of the boundary layer equations of an ideal compressible flow over a flat plate, pp 34-35 (Jan.).

REID, J. A. I.
Design aspects of non rigid airship envelopes, pp 327-328 (Sept.).

REMOTELY PILOTED VEHICLES
Communications to RPVs, S. E. Gibbs and M. R. B. Dunsmore, pp 98-102 (March).
Mini-RPV research, R. Coleman, A. J. Robins, D. J. Frary and R. Stephenson, pp 39-47 (Feb.).
Stabilised surveillance payloads, E. C. Schaschke, pp 17-19 (Jan.).

ROBINS, A. J., FRARY, D. J., STEPHENSON, R. and COLEMAN, R.
Mini-RPV research, pp 39-47 (Feb.).

ROBINSON, M. L.
The Darrieus wind turbine for electrical power generation, pp 244-255 (June).

ROTHWELL, A.
An experimental investigation of the post-buckled efficiency of Z-section stringer-skin panels, pp 29-33 (Jan.).

ROTORCRAFT
Requirements and possibilities — rotorcraft powerplants, Robert R. Lynn, pp 7-16 (Jan.).

ROWE, N. E., MEDAL PAPERS
Experimental investigations of the base pressures found on a bluff body in ground effect, R. L. L. Frost, pp 63-70 (Feb.).
The use of bonded crack-stoppers in pressure cabins, Mark Norris, pp 57-62 (Feb.).

ROYCE, Sir HENRY, MEMORIAL LECTURE
The well tempered transport aircraft engine, John G. Borger, pp 395-413 (Nov.).

SCHASCHKE, E. G.
Stabilised surveillance payloads, pp 17-19 (Jan.).

SELLARS, R. J. and TERRY, G.
Sophisticated aircraft structure developments — combat aeroplanes, pp 334-342 (Sept.).

SHANKS, D. H. and BARRETT, R. V.
Performance of aircraft pneumatic tyres in soft soil, pp 20-28 (Jan.).

SHARMA, S. D. and GAI, S. L.
Experiments on the reduction of base drag of a blunt trailing edge aerofoil in subsonic flow, pp 206-210 (May).

SHERWIN, KEITH
The application of dynamic soaring to man powered flight, pp 150-153 (April).

SIEGERT, C. D., BENDIXEN, G. E. and O'CONNELL, R. F.
Digital active control system for load alleviation for the Lockheed L-1011, pp 430-436 (Nov.).

SPACE AND SPACECRAFT
Attitude estimation and control of a flexible spacecraft using inertial and optical measurements, D. Horton, J. Fenton and K. F. Gill, pp 240-243 (June).
Flexible spacecraft attitude control using a simple *P+D* algorithm, J. Fenton and K. F. Gill, pp 185-189 (May).

STEPHENSON, R., COLEMAN, R., ROBINS, A. J. and FRARY, D. J.
Mini-RPV research, pp 39-47 (Feb.).

STOLLERY, J. L. and MATTICK, A. A.
Increasing the lift:drag ratio of a flat delta wing, pp 379-386 (Oct.).

STRUCTURES AND STRUCTURAL DESIGN
The application of improved aluminium alloys and steels in aircraft structures, C. J. Peel and D. S. McDarmaid, pp 320-326 (Sept.).
Design aspects of non rigid airship envelopes, J. A. I. Reid, pp 327-328 (Sept.).
An experimental investigation of the post-buckled efficiency of Z-section stringer-skin panels, A. Rothwell, pp 29-33 (Jan.).
Light aircraft structural design in non-metallics — use of composite honeycomb for light aircraft, G. E. Woodley, pp 332-333 (Sept.).
Pretension diagrams for bolted joints, E. P. Donald, pp 71-79 (Feb.).
Some possibilities for composite light aircraft construction, J. H. Webb, pp 328-331 (Sept.).
Sophisticated aircraft structure developments — combat aeroplanes, R. J. Sellars and G. Terry, pp 334-342 (Sept.).
Stress concentration in rectangular cut-outs under pure shear, B. Bandyopadhyay and R. Karmakar, pp 111-112 (March).
The use of bonded crack-stoppers in pressure cabins, Mark Norris, pp 57-62 (Feb.).

SUPERSONICS AND HYPERSONICS
Optimal flight paths for winged, supersonic flight vehicles — extension to the case where thrust can be vectored, E. Large, pp 343-348 (Sept.).
Shock wave reflection from supersonic sea-skimming — a first look, G. M. Moss, pp 459-466 (Dec.).

SYMPOSIA, DISCUSSIONS, ETC.
Symposium on Airship Technology — Components and Installations, pp 85-97 (March).

TAKE-OFF AND LANDING
Airline flight departure procedures — choosing between noise abatement, minimum fuel consumption and minimum cost, R. E. Jones, pp 154-166 (April).

TERRY, G. and SELLARS, R. J.
Sophisticated aircraft structure developments — combat aeroplanes, pp 334-342 (Sept.).

THAKKER, A. and NEVE, R. S.
The effect of superimposed Rankine and forced vortices on conical diffuser performance, pp 234-239 (June).

TWOMEY, Captain R. A.
The economics of Shuttle, pp 1-6 (Jan.).

TYE, Dr. WALTER
Civil aircraft design for fuel reduction, pp 134-142 (April).

UNDERCARRIAGES
Performance of aircraft pneumatic tyres in soft soil, D. H. Shanks and R. V. Barrett, pp 20-28 (Jan.).

WALLIS, Sir BARNES, MEMORIAL LECTURE
Barnes Wallis — Designer (1887-1979), N. W. Boorer, pp 414-429 (Nov.).

WATER AND MARINE ASPECTS
Fluid and air-borne structures: some comparisons and contrasts, J. B. Caldwell, pp 359-367 (Oct.).

WEBB, J. H.
Some possibilities for composite light aircraft construction, pp 328-331 (Sept.).

WIND TUNNELS AND WIND TUNNEL TESTING
A speculation on the influence of compressibility on the performance of a wind-tunnel contraction cone, K. G. Winter and Caroline Boyd, pp 387-389 (Oct.).

WIND TURBINES
The Darrieus wind turbine for electrical power generation, M. L. Robinson, pp 244-255 (June).

WINGS
Increasing the lift:drag ratio of a flat delta wing, A. A. Mattick and J. L. Stollery, pp 379-386 (Oct.).
The optimal planform, size and mass of a wing, E. Large, pp 103-110 (March).

WINTER, K. G. and BOYD, CAROLINE
A speculation on the influence of compressibility on the performance of a wind-tunnel contraction cone, pp 387-389 (Oct.).

WOODLEY, G. E.
Light aircraft structural design in non-metallics — use of composite honeycomb for light aircraft, pp 332-333 (Sept.).

YAKHOT, A., BEN-DOR, G., RAKIV, Z. and IGRA, O.
A new approach to the solution of the boundary layer equations of an ideal compressible flow over a flat plate, pp 34-35 (Jan.).

YANGOS, PATROCLOS J. and YANGOS, JOHN P.
Spin: angles and inertial moments, pp 270-276 (July/Aug.).

YATES, I. R.
Investment for the future, pp 286-300 (July/Aug.).
